Professional Summary

Aspiring Data Analyst and Data Science enthusiast with hands-on knowledge of Python, SQL, Power BI, Machine Learning, and Data Visualization. Skilled in data cleaning, exploratory data analysis (EDA), dashboard creation, and predictive modeling using Pandas, NumPy, and Scikit-learn. Passionate about transforming raw data into meaningful insights and building data-driven solutions.

Education

- **BSc in Physics**
SB Arts and KCP Science College, Vijayapura
CGPA: 7.2
- **Master's in Computer Application (MCA) 2025 – 2027**
RNS Institute of Technology, Bengaluru
CGPA: 8.7

Projects

- **Sales Data Analysis Dashboard** — Python, Power BI, SQL
 - Built a dashboard analyzing sales data with 10,000+ records using Power BI.
 - Identified sales trends and customer purchasing patterns using data visualization.
 - Used Pandas and Matplotlib for preprocessing and reporting automation.
- **Machine Learning Prediction Model** — Python, Scikit-learn
 - Developed regression and classification models using Scikit-learn.
 - Performed feature engineering, normalization, and model evaluation techniques.
 - Worked with NumPy and Pandas for data transformation and analysis.
- **Student Management System** — Java, SQL
 - Developed a desktop application to manage student information using Java (Swing) and MySQL.
 - Features include student registration, profile management, course enrollment, attendance tracking, and report generation.
 - Implemented CRUD operations, search, and data validation for efficient data handling.
 - Designed relational database schema and established JDBC connectivity for seamless data flow.
 - Ensured secure login authentication for admin access and role-based operations.

Technical Skills

Languages: Python, SQL, C (Basic)

Libraries/Frameworks: Pandas, NumPy, Scikit-learn, Matplotlib

Data Visualization Tools: Power BI, Tableau, Excel

Databases: PostgreSQL, MongoDB

Developer Tools: Git, GitHub, VS Code

Core Concepts: Machine Learning, Data Analysis, Data Cleaning, Data Visualization, OOP, ETL

Certifications

- Python Programming Basics — Coursera (2025)
- Machine Learning Fundamentals — Google (2025)
- Data Visualization with Power BI — Coursera (2025)
- SAP Business Data Cloud Fundamentals (2025)
